

DeLounge Salon Website UI/UX Redesign

Improving the Online Appointment Booking Experience

-KOTHA ABHIGNA REDDY

REDESIGN FOR

Delounge website

Problems Identified in the Original Website

Navigation Without Clear Action

The navigation bar had multiple options such as Home, About, Services, Branches, Franchise, Blog, and Contact, but no clear **“Book Appointment”** call-to-action, making it harder for users to immediately schedule a service.

Unclear Service Information

Service information was scattered and pricing details were not clearly visible, making it harder for users to evaluate services quickly.

Cluttered Layout

Overcrowded design makes navigation difficult and overwhelms users.

Poor Mobile Experience

Appointment booking form not optimized for mobile devices.

The Redesign Approach

Home — Clear entry point with highlighted booking action

The homepage introduces a clear and engaging entry point with a strong hero section and a prominently highlighted **Book Appointment** button. This guides users toward the main action while improving navigation and overall usability.

Services — Categorized discovery with visual appeal

Services are organized into clear categories such as Hair, Makeup, Nails, and Facials, using visual cards to make browsing easier. Key details like service name, price, and duration are displayed clearly, helping users quickly scan and choose the service they need.

Booking — Streamlined step-by-step process

The booking process is organized into a clear step-by-step flow, allowing users to easily select a service, choose a date and time slot, and enter their details, making the appointment process simple and efficient.

Confirmation — Clear summary and next steps

The confirmation page clearly displays the appointment details such as selected service, date, time, and customer information, giving users a clear summary of their booking and guiding them on the next steps.

Original Homepage Issues

- The hero section only had a tagline and background image with **no clear action for users**
- Important services were **not immediately visible**, making service discovery difficult
- The layout lacked **clear visual hierarchy**, making it harder to guide users through the page
- Branch information was displayed in a **less structured way**

Improvements in the Redesigned Homepage

- Introduced a stronger headline “**Elevate Your Beauty Experience**” to communicate the brand clearly
- Added a prominent “**Book Appointment**” call-to-action in both the hero section and navigation bar
- Added an “**Our Services**” section to help users quickly explore available services
- Redesigned the **branch section with interactive cards** so users can easily find nearby locations
- Improved spacing, layout structure, and visual hierarchy to make the page easier to navigate

SERVICE PAGE REDESIGN

Original Service Page

Original Service Page Issues

- Page only had a simple “Our Services” heading with weak visual focus
- Services were shown in long sections that were hard to scan
- No clear service categories, making navigation difficult
- Service pricing was not clearly highlighted
- Limited call-to-action for booking services

Improvements in the Redesigned

Improvements

- Introduced a **premium hero section** for stronger page identity
- Added **service category cards** (Hair, Makeup, Nails, Facials)
- Organized services into **clear, easy-to-scan sections**
- Displayed **service prices and details clearly**
- Added multiple “**Book Appointment**” buttons for quick booking

Redesigned Service Page

Original Booking Page

Original Booking Page Issues

- Services displayed in a long list making selection confusing
- Layout looked crowded and difficult to scan
- Booking steps were not clearly structured
- Important actions like proceeding to booking were not highlighted

Booking Page Improvements

- Organized services into clear categories
- Introduced a step-by-step booking flow
- Displayed service price and duration clearly
- Added clear “Continue to Time Slots” action button
- Improved layout spacing and visual hierarchy

Redesigned Booking page

APPOINTMENT CONFIRMATION & ENQUIRY FLOW REDESIGN

Original Lead Page

Original Confirmation / Lead Page Issues

- Appointment confirmation flow **not clearly structured**
- Booking details shown as **plain text with weak visual hierarchy**
- Customer details form looked **dull and less engaging**
- **No dedicated enquiry or lead capture option**

Confirmation / Lead Page Improvements

- Introduced a clear “**Confirm Your Appointment**” summary page
- Highlighted **service name, price, date, and time details**
- Redesigned **customer details form with cleaner layout**
- Added a dedicated **Lead / Enquiry** section for user communication
- Improved **call-to-action** with clear “**Book Appointment**” button

Redesigned Lead Page

Final Improvements

Clear Booking Flow

The redesigned interface introduces a step-by-step booking journey, making it easier for users to select services, choose time slots, and confirm appointments without confusion

Service Categories

Services are grouped into clear categories such as Hair, Makeup, Nails, and Facials, helping users quickly discover the service they are looking for.

Better Service Details

Important information like **price**, **duration**, and **service name** is displayed clearly, allowing users to make faster decisions before booking.

Integrated Enquiry Option

An enquiry section is added in the confirmation stage so users can contact the salon easily if they have questions before booking.
